Local Responsibilities Related to National Environmental Health Priorities

Richard J. Jackson, MD, MPH

*Senior Advisor to the Director,
Centers for Disease Control and Prevention
Atlanta, Georgia*

Dr. Jackson's presentation will explain the Center for Disease Control's (CDC) Environmental Health Strategic Plan, highlight areas that require local input and action focusing on medical issues and impacts on social milieu, discuss priority issues and goals including urban planning, health and mental health issues, delineate local partnership responsibilities including health care and mental health care providers, discuss issues that impact the gerontological community, discuss timelines for implementation, present parameters used in the evaluation process.

Lecture and reception is free and open to the public.

Reception immediately following the lecture.

CEU approval pending for nursing, social work and registered sanitarians. For more information, please contact Linda Crawford at: lcrawfo@bgnet.bgsu.edu.
